

# openIDL ND Uninsured Motorist POC

## Information Sheet

This document provides you with the information for accessing the openIDL system through your node.

Item	Description	Value
Main Data Call UI	This is the URL you use to access the application when working with the data calls.	
Upload UI	This is the URL you use to access the uploader. You'll use the uploader to upload the VINs (registered if you are the DOT and insured if a carrier). You can also view previously loaded VINs by month.	
User Invitation	A link to follow that allows you to set up the userid with a password and M	
Organization ID	This is the unique identifier we'll use to manage the data.	

Item	Description	Value
User emails	A list of emails for people who will access the system. These users will have access to both User Interfaces and be able to interact on data calls and upload data.
