

# Regulatory Reporting Data Model Working Group

|              |  |
|--------------|--|
| Description: | <p>The Regulatory Reporting Data Model Working Group is a collaborative group of insurers, regulators and other insurance industry innovators dedicated to the development of data models that will support regulatory reporting through an openIDL node. The data models to be developed will reflect a greater synchronization of data for insurer statistical and financial data and a consistent methodology that insurers and regulators can leverage to modernize the data reporting environment. The models developed will be reported to the Regulatory Reporting Steering Committee for approval for publication as an open-source data model.</p> <p>The Regulatory Data Model Working Group reports to the <a href="#">Regulatory Reporting Steering Committee</a>.</p> |
|--------------|--|

## Regulatory Reporting Data Model WG Members

Chair: TBD
