

# Reference Data

The openIDL network will provide look up information to authenticated members. We will provide official openIDL codes for cross organization information. We will provide name, code pairs for common information. This will simplify reporting. We will provide look up data for the following objects.

## Reference Data Objects

code	name	shorthand/ABV	date	notes	
1	Line of Business	LOB			
2	Vehicle Make	Make			
3	Vehicle Model	Model
