# Personal Auto Stat Plan Architecture POC

## Scope

The scope of this POC follows:

What do the different constituencies want to accomplish?  We are done when we have these things.  It could be running code or answers to questions.

## Travelers

## Hartford

## AAIS

## Technical Partners (CY, Senofi...)

## Linux Foundation

## Other (Hanover...)

## Candidate Items

- working auto stat report with real data at volume
- target architecture
- hosted nodes
- target hds format
- current stat plan format
