POC Proposal

1. What: Establish MVP Data Model for Statistical Reporting Across 4 lines.
2. Who: RRDMWG
3. How: Multi Layer approach, utilizing a Normalization Focus Group.
4. LOBs: Auto, HO, BOP, GL

Phase 1 (Day 1)

- Friday 1pm-3pm ET:
    - Analyze available fields from carriers today (AAIS Stat Plan)
    - Establish Dictionary, Attributes, Definitions, Enumerations, Acceptable Values
    - Establish Business Objects, ex: Vehicle, Policy, Coverage
- Tuesday 9am-10am ET:
    - Normalization of Dictionary of available data

Phase 2 (Day 2)

- Friday 1-3pm ET:
    - Unpack Existing fields, identify how to decodify existing details.
    - Analyze Gaps in current Fields
- Tuesday 9am-10am ET:
    - Normalization of unpacked data

Phase 3 (3)

- Friday 1-3pm ET:
    - Define additional fields based on gaps
    - Establish Dictionary, Attributes, Definitions, Enumerations, Acceptable Values
- Tuesday 9am-10am ET:
    - Normalization of additional new data elements

Order of operations: Complete phase 1 for each of the listed LOBs, then move to phase 2. Each Phase will be completed in whole before the next phase is to begin.
