

2022-11-11 Meeting Agenda

Date

11 Nov 2022

Attendees

- Nathan Southern
- Jeff Braswell
- Sean W. Bohan
- Ken Sayers
- peter antley
- Susan Chudwick
- Reggie Scarpa
- Kevin Petruzielo
- David Reale
- Ash Naik

Antitrust Policy Notice

Linux Foundation meetings involve participation by industry competitors, and it is the intention of the Linux Foundation to conduct all of its activities in accordance with applicable antitrust and competition laws. It is therefore extremely important that attendees adhere to meeting agendas, and be aware of, and not participate in, any activities that are prohibited under applicable US state, federal or foreign antitrust and competition laws.

Examples of types of actions that are prohibited at Linux Foundation meetings and in connection with Linux Foundation activities are described in the Linux Foundation Antitrust Policy available at <http://www.linuxfoundation.org/antitrust-policy>. If you have questions about these matters, please contact your company counsel, or if you are a member of the Linux Foundation, feel free to contact Andrew Updegrove of the firm of Gesmer Updegrove LLP, which provides legal counsel to the Linux Foundation.

This is a weekly series for The Regulatory Reporting Data Model Working Group. The RRDMWG is a collaborative group of insurers, regulators and other insurance industry innovators dedicated to the development of data models that will support regulatory reporting through an openIDL node. The data models to be developed will reflect a greater synchronization of data for insurer statistical and financial data and a consistent methodology that insurers and regulators can leverage to modernize the data reporting environment. The models developed will be reported to the Regulatory Reporting Steering Committee for approval for publication as an open-source data model.

openIDL Community is inviting you to a scheduled Zoom meeting.

Minutes

I. Introductory Comments

A. Peter Antley read LF anti-trust statement

B. Introductory comments by Mr. Braswell

II. Updates

A. PA: working on networking and understanding blockchain components of existing solution

B. PA: has also been meeting with JB to talk about where we're going next and what makes sense

1. Not many more questions for the auto
2. Thinking maybe some strong work looking ahead is converting homeowners into stat plan.
3. Question about the possibility of temp. suspending this group. (SC: not in favor of suspending this group - we can move into homeowners regardless of AWG).
4. PA: sees homeowners as being a much quicker process. Recyclable - we should be able to use many of the calculations that we've already developed for auto. (SC: not many)
5. We also have Hanover - they don't currently work with our stat plans. We will start by working through homeowners and reviewing the basic elements.
6. Ultimately we'll be moving into catastrophe reporting.
7. PA: looking at how many KPIs and story points we need first - wants to get estimates on what will be

C. Group will be suspended temporarily until Dec. 9th.
