## Antitrust Policy Notice

Linux Foundation meetings involve participation by industry competitors, and it is the intention of the Linux Foundation to conduct all of its activities in accordance with applicable antitrust and competition laws. It is therefore extremely important that attendees adhere to meeting agendas, and be aware of, and not participate in, any activities that are prohibited under applicable US state, federal or foreign antitrust and competition laws.

Examples of types of actions that are prohibited at Linux Foundation meetings and in connection with Linux Foundation activities are described in the Linux Foundation Antitrust Policy available at <http://www.linuxfoundation.org/antitrust-policy>. If you have questions about these matters, please contact your company counsel, or if you are a member of the Linux Foundation, feel free to contact Andrew Updegrave of the firm of Gesmer Updegrave LLP, which provides legal counsel to the Linux Foundation.

GMT20230424-1...Recording.m4a

- stakeholder meeting with DMWG - like SDMA functionality as it exists
- trying to move to React app
- serverless stuff
- using API gateway, cognito for login, node-based lambdas
- SQSQs
- higher fidelity diagrams
- yellow square - pages
- user pool - landing page
- list of files, files loaddd in olga
- next week - landing page
- bring yuo to a place to log in
- option to click existing file, bring you the file page
- broken down into sections, diff lines of business, each is summary metrics
- more details next week
- summer and fall worth of work
- how to get more org around it
- more details
- workflow
- React preferred to angular
- JS and react for other stuff
- ref implementation for requirements
- flow and UI reqs
- 004 architecture decision - react vs angular
- carriers can use this to work and populate the hds
- move from data processing to HDS
- timing?
- somewhat resource dependent
- intern coming on - do more with implementation of stat plan
- looking good for the fall
- pieces tried out earlier/useful as you add parts
