

openIDL ND Uninsured Motorist POC

Welcome

Welcome

Welcome to the openIDL North Dakota Uninsured Motorist Proof of Concept. We are excited to work with you.

Since you are a participant in the Proof of Concept, we are providing an onboarding package to help make the experience smoother. This document provides information about what you'll find in the package.

What is Included

These are the documents included in your onboarding package and their purpose.

File Name	Purpose
openIDL ND POC Onboarding - Welcome	This document
openIDL ND POC Onboarding - Quick Start Guide	An overview of the system and how to interact with it based on your role.
openIDL ND POC Onboarding - Data Submission Guide	A guide to the format for data submissions.
openIDL ND POC Onboarding - Info Sheet - <orgid>	Provides details of the URLs and other information useful during the POC. <orgid> will be the id assigned to your organization during the POC.

What to Expect

AAIS, the ND DOI and Chainyard (our technical partner) will be working with you over the course of the POC.

Chainyard will set up the nodes in the network and we'll share the URLs and user information with you.

We'll have training sessions as needed.

We'll run through some tests to verify everything is working.

Then we'll work together to execute the three specified data calls.
